

## Mass Transfer

### DESIGNED FOR

Engineers in the refining, petrochemical, chemical, and EPC industries. The course includes classroom training, design exercises, and hands-on sessions in the pilot plants.

### COURSE OVERVIEW

This 5-day course is taught by engineering professionals with extensive mass transfer experience. It combines classroom lectures with hands-on experiments in a world-class pilot plant. The lectures include class-worked examples, videos, demonstrations, viewing product samples, and the use of detailed notes. During the course of each session attendees will participate in several pilot-plant experiments that will demonstrate the working of the equipment that were discussed in the classroom.

### SOME TOPICS COVERED DURING COURSE

- Fundamentals of different types of mass transfer devices
- Operation of trays, packing and distributors
- Basic mass transfer equipment calculations
- Applicability of different mass transfer devices
- Equipment design and selection

### LOCATION, DATES & PRICE

Wichita, KS / October 16 - 20, 2023 — \$2,995

## Included

Each participant will receive a color hardcopy of the course presentation and a certificate of completion.

Each registrant will receive a complete lunch, morning and afternoon snacks and all-day complimentary beverages.

## Payments/Cancellations

Your registration in a class is not guaranteed until payment in full has been received. Payment is due 30 days before the start of a class.

Cancellations received at least 30 calendar days before the start of a class will be 100% refunded. Cancellations less than 30 calendar days before the start of the class will not be refunded, but the student may attend the same course in the future at a 50% discount. Students who fail to show up for a course will not receive a refund and will not be eligible for the 50% discount. Students may at their option find their own replacement up to 7 calendar days prior to the start of the course to avoid the cancellation fee.

Our company considers the health and safety of all our attendees, guests, and employees of paramount importance. All events shall be held in accordance with all company and venue policies and procedures as well as all local laws, regulations, and guidance in relation to the evolving COVID-19 situation. It is the responsibility of each attendee to abide by all such policies, procedure, laws, regulations, and guidance while attending the event. If an attendee is unable to attend the event and must cancel or postpone their reservation in order to comply with the aforementioned, the company shall endeavor to transfer the reservation to the next available event.

## Policy Statement

It is the policy of the Koch Engineered Solutions Institute that 100% of the tuition must be paid by the student's employer or an affiliate of the employer. Payment for classes may be made only once the students have been approved for admission. We reserve the right to deny admission for any reason permitted by law including, without limitation, the admission of employees of companies that Koch Engineered Solutions deems to be a competitor. All decisions regarding admissions are made without regard to color, race, religion, gender, sexual orientation, national origin, ethnicity, age, disability, pregnancy, veteran status or other legally protected factors.

We reserve the right to cancel the registration of a student at our sole discretion, in such event we will refund the course tuition.

## Thousands of Professionals Educated

Our industry values experience and expertise. That's why thousands trust us for training and education. Each year, professionals from around the globe attend the Koch Engineered Solutions Institute, where they learn from industry leaders in the classroom and at the largest, most advanced combustion testing facility in the world. Let us share our knowledge with you.
